SAFETY TIPS

Wear Proper Safety Gear (PPE)

A hard hat when working under trees or heavy logs

- ✔ Never operate the mill without full protective gear.

Keep a Safe Distance

Only one operator should be near the mill during operation.

- ✔ Safety zones save lives.

Operate on Stable, Level Ground

Avoid slopes or loose ground that can cause the mill to tilt or shift.

- ✔ Stable setup = safer and cleaner cuts.

Shut Down Safely

Always turn off the engine before adjusting, cleaning, or moving the mill.

- ✔ Safe shutdown = no surprises.

Inspect the Mill Before Use

Check all bolts, blades, and belts for tightness.

- ✔ A quick inspection prevents costly damage and accidents.

Please refer to operations manual

COMPATIBLE ACCESSORIES AND CONSUMABLES

Slabbing Attachment

- ⚙ Slabbing Attachments are available to fit all Lucas Mill Models and are compatible with both new and old machines. This attachment is simply fitted to the output shaft with a special drive hub and harvester sprocket, after removing the circular blade.

Planing Disc

- ⚙ This attachment enables operators to achieve superior finish on board and slabs.

Sanding Disc

- ⚙ Fitting on to the output shaft of any circular swing blade Lucas Mill, this attachment is an ideal follow-on from the Planing Disc. For super smooth timber for furniture making and the like, this attachment is a great option.

Weatherboard Attachment

- ⚙ To cut out weatherboard, this attachment is available on all models

Re-Tipping Kit / Re-tipping Jig

- ⚙ For those keen to do their own servicing, or who may like the convenience of not having to use a saw doctor, re-tipping jigs are available to suit all blade sizes.

Lucas Slabber Chain Sharpening Jig

- ⚙ This simple and easy to use jig is a must have for Lucas Slabber operators. Designed to cater for a range of chain sizes, this tool enables easy and accurate chain maintenance.

Log Chocks

- ⚙ Available in a set of 4, these simple devices ensure that your logs remain secure on bearer during milling. Using a log chock will also help you to achieve maximum timber recovery.

SERVICE AND WARRANTY
